Ref: SBV/IQAC/ Action Taken Report / 2015-16/ dt.27.04.2016

Presented in the IQAC meeting 29.4.16

1. The Dean Research and Allied Health Sciences expressed that it is feasible to implement competency based innovative curriculum and CBCS in all the new programmes soon.

Action taken: The CBCS pattern was approved by the Academic Council in Programs under the AHS.

2. The IQAC must start the AAA process either internal or external with effect from this year. In this regard, IQAC must prepare a SOP/ manual for AAA process.

Action taken: The AAA manual was prepared and submitted for BOM approval

3. The hospital and lab in charges must commence the process of NABH and NABL accreditations. The vice chancellor also stated that the next five-year plan must include strategies addressing these areas of concern.

Action taken: The NABH process for MGMCRI for entry level pre-accreditation commenced.

4. Quality program planned for February & March were presented which included program done in association with MEU & NEU. The Vice Chancellor stated that IQAC can also conduct programs on quality related to focus independently.

Action taken: The programs in February and March 16, were on Ishikawa Analysis and Goal setting and benchmarking, exclusively conducted by IQAC.
