Action taken report

Based on the meeting minutes on 28<sup>th</sup> Feb

Point number 1: Many ongoing researchers have projects that extend more than 3 years. Decisions must be taken by the Dean research to fix the maximum limit for the study while allocating the seed money. Seed money disbursement is less in certain departments. Must encourage all to submit the proposals for review for seed money.

*Action taken: The IHEC of all institutions have been sensitized to fix the approval of projects to max 3 years.*

Point number 2: Publications in the in-house journal are less as they are not indexed yet. Steps to be taken to index them. IGIDS and KGNC to increase the number of publications and their quality by publishing in high impact journals.

*Action taken: Institutional heads were sensitized to take necessary action.*
