Full Time	3	2	0
Part Time	2	6	2

**Online Education**

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.	<p>Sri Balaji Vidyapeeth has a well-structured Disaster Preparedness and Management plan to ensure academic continuity in the event of any disaster - natural or man-made. The disaster preparedness plan was activated when the pandemic started.</p> <p>By 15 of March 2020, the timetable for online classes was issued. Teachers were trained in intensive training sessions to deliver remote teaching using the institute's learning management system and Big blue button virtual classrooms. In April, we migrated to Zoom to ensure scalability. By the end of April, all the classes were regularised to be held online including assessments and attendance.</p> <p>Standard Operating Procedures (SOP) for online classes were formulated, implemented, tested and refined. Ongoing technical support and close tutoring were given to teachers to continuously improve their remote teaching. Students were also trained in participating online with a set of best practices.</p> <p>SBV is one of very few Institutions in India to implement Canvas Learning Management System (by Instructure) - the LMS that is used by top 100 Universities. Canvas LMS empowered us to seamlessly move all academic activity online with minimum disruption. Learning Tools Interoperability was leveraged to connect Canvas LMS with BigBlueButton, Zoom and other educational technology tools.</p> <p>Postgraduate training was closely monitored and mentorship provided through the SBV COBALT model utilising ePortfolios. SOPs were implemented to balance Postgraduate training with COVID duties by moving routine weekly seminars, clinical discussion groups and other mentoring activities online. The COVID duties exposed our postgraduates to epidemiological, disaster management and challenges of community medicine.</p> <p>Curriculum delivery was designed as hybrid, activity-dependent, outcomes-oriented, problem-based learning modules. A total of 13334 classes were held over a period of 10 months. The classes were also recorded on the cloud to afford students to review them independently.</p> <p>Assessments were also delivered online through periodic as well as continuous assessment methods. Assignments, MCQ based proctored examinations were delivered to assess learning.</p> <p>A range of classroom activities was digitized and automated. Virtual experiments and practical laboratory exercises were conducted. Small group teaching, digital lab reports, DICOM format based radiology samples, simulated patients and VR were employed to deliver clinical teaching. The learning experience was tailored to closely imitate campus-based teaching. Communications were enhanced using real-time text and voice messaging systems to promote social learning.</p> <p>Executive Development Programs to train faculty of other educational institutions, delivered online were a major success. SBV was able to share its expertise in online teaching with other educational institutions in the state and region. Our best practices and tested methodology was adopted by a number of institutions.</p> <p>Feedback was periodically taken from all stakeholders - faculty, students and parents to identify and rectify gaps. Students expressed satisfaction with the measures.</p> <p>The timetables were designed to allow for the entire syllabus to be covered without any compromise whatsoever. Periodic quarterly quality assurance activity by the IQAC ensured sustained achievements of outcomes.</p> <p>A team of academic leaders supervised and monitored online teaching activities closely. A full-time directorship of e-learning was created and a senior professor was appointed to provide leadership.</p>		
3. The period of delay in completion of syllabus (in months).	0		
4. The period of delay in conducting exams (in months).	0
