NAAC 2020

CIRCULAR

CRAMS (Clinical Audit and Research by Medical students) is a value added Experiential Module for **III Semester MBBS students**. The program aims to introduce the Medical Students to the 'Hospital as a System – to observe and learn workflows and processes" and to study the patients' profile in our hospital and to understand what the patient expects from the Healthcare System'

The students will be visiting the hospital from **28th September 2019 Saturday to 3rd October 2019 Thursday**.

As decided in the Curriculum Committee for 'effective engagement of students during the hospital visit, they will be assigned to the individual departments. The list of departments, no of groups assigned daywise the tasks to be studied by the students is enclosed with. It is requested to assign faculty / Staff responsible for the groups every day.

VICE PRINCIPAL (CURRICULUM)

DEAN

Enclosure as above: Department wise creams schedule

To: All the heads of the departments concerned

Copy to: The GM (Admin)/MS/VP (Curriculum)/VP (Students)/ Legal Officer& Head / Sr. Personnel Manager/NS/DMS/ RMO/ Chief Warden/ Both Hostel Wardens

Copy submitted to: The Registrar, SBV for information
The Dean of faculty/ for information
The Vice-Chancellor, SBV for information.
The Chancellor for kind information.

CReAMS (Clinical Research and Audit by Medical Students)

Background

The appreciation and application of research principles is a core competency for medical students. Involvement in clinical research and audit is important for health professionals, both to ensure a high standard of healthcare and to develop an interest in research methodology. This project aims to demystify the auditing and clinical research process for medical students. It also provides a unique opportunity for self development, which will enrich medical students' clinical capabilities as doctors.

Aim:

- To promote the principles of evidence-based audit and research amongst our medical students.

The educational objectives:

Participation in this medical collaborative initiation is a novel medium for you engage to in academic projects. We sincerely believe that through participating in facilitated, supervised and focused study, you as students can gain significant improvements in confidence within a number of core academic domains.

The CReAMS would enable Student to

- ❖ Observe, interact with patient populace of the hospital
- ❖ Explore the social, economic links of healthcare delivery systems
- ❖ Practice communications and interview skills
- ❖ Work as a team, in organizing, coordinating and facilitating each other's

efforts.

- ❖ Use data collection tools to elicit necessary information
- ❖ Perform simple statistical tools and do an analysis
- ❖ Present your findings to the Clinical Governance body of the Institute.
- ❖ Use Information technology to enhance learning and for research
- ❖ Improvements in professionalism and team working skills.
- ❖ Overcome previously reported barriers to engagement in extracurricular academic projects.
- ❖ Students who participate in such activities report significantly increased levels of confidence and appreciation of key academic principles.

The educational package developed to support this process will give specific attention to the necessary practical knowledge required by students, such as

- the socio- economic and clinical profile of the patients attending our Institute
 - working knowledge of the hospital departments
 - the facilities available & services offered patient care/workflow path ways
 - role of various healthcare professionals in patient care
 - expectations of patients from the healthcare system esp. from doctors as a group and
- To identify the necessary data collection points required for conducting an audit and where to find these.
- More broadly, the novel **"mini-team" peer support structure** provides an on-going information sharing and encouragement

Benefits of getting involved in audits as a medical student

There are numerous individual advantages from getting involved in the clinical audit process as a medical student. These include:

- Students develop experience and learn the most efficient ways to do things. This will make working as a junior doctor much easier.
- You increase your own understanding of clinical care, which help you in the long run.
- You can develop an early commitment to a particular specialty.
- Demonstrating such enthusiasm will impress faculty.
- There will be opportunities to network with members of the healthcare team and senior clinicians.
- You can present your findings at a national conference or publish them in a peer-reviewed journal.
- Involvement in an audit might generate research ideas and lead to subsequent research projects.

The process

The whole project will be done in 4 phases:

Phase 1 – Orientation

Students shall receive orientation & hands on practice from a group of dedicated faculty on the following topics, amounting to (4*2.5=10 instruction hours)

- Clinical research & Audit
- The process flow of CREAMS
- Conducting patient interviews & Data collection
- Data Entry & Use of excel spread sheets

Tentative List topics:

They shall also be divided into 40 small groups of 4-5 members per Team, so as to develop cohesiveness and group dynamics.

Sl.no	Department	Final presentation activities
1 & 2	Anaesthesia	• Anesthesia facilities/services offered
		• Preparation for emerg& elec surgeries
		• B2 OT
		• Post op monitoring & care
		• D 1 ot-facilities/process/mapping
		• General anaesthesia - what, why and how
		• How sterility is maintained in the ot environment
3	Biochemistry & blood bank	• Regional anaesthesia blocks - what, why and how
		• Central lab-equipments/services/maintenance, workflow
		• Central lab-patient interaction
		• Quality assurance lab
4	Cardiology	• Blood map - floor plan, equipment, services & / blood donation promotion
		• Blood bank-screening, collection, issue, expired blood
		• Cardio opd/wards -services/facilities/floor map
5 & 6	Community Medicine	• Post mi cardiac rehabilitation
		• Plastic use - source identification in the campus waste segregation
		• Water stagnation inside the campus
		• Hms - backbone, what is it, how it is useful
		• Campus map-transect walk , buildings and road safety
		• Water tank
		• Maintenance services(plumbing &electricity)
		• Mrd - floor map, services offered
7	Dermatology & Venerology	• Housekeeping services
		• Insurance claims-process(who gets, how, what is covered,suggestions)
		• Fire safety
		• Multidrug therapy - Hansen's
8	Oto-rhino-laryngology	• DVL OPD-map/services/facilities
		• DVL OPD -patient interaction
		• ICTC pre & post test counselling for hiv
		• ENT OPD-floor plan, facilities, audiometry
9	Emergency	• ENT OPD -patient interaction
		• I 4 - -patient interaction
		• Services for hearing impaired
		• Ambulance services

The roles and responsibilities

This project would be done as a collaborative effort between the following departments – CReAMS team (a group of interested, self motivated and involved faculty members, Dept of Community Medicine & Quality Management services. The program is conceived and coordinated by Vice Principal (Curriculum).

Phase 2 – Data Collection & Capture

- (i) This phase will last for 5 complete working days. During this time, the students will be posted across various outpatient departments and service areas of the hospital for a cross sectional survey and data collection from the patients.

Each group shall collect data pertaining to the

1. Patient profile
2. Basic demographics
3. Disease profile
4. Quality of care & services indices

using a predefined Proforma

- (ii) All groups of students shall be posted in the wards on a single day-where in a complete survey of all inpatients in the hospital shall be done on the above parameters.
- (iii) Part of the project involves facility and services mapping and study of the workflow patterns and processes in the hospital. To do so, each group of students shall be allotted a specific area to visit and processes to observe.
- The Students shall report to the allotted region, interact with the faculty & nursing team present in these regions and clarify their doubts. They shall then observe the workflow process hands-on.

- The list of services and processes will be allotted to the groups will vary every day. A minimum of 3-5 workflow processes has to be observed by the students for better understanding.
- The data collected by students shall be entered in validated excel spreadsheets for analysis.

Phase 3 – Data analysis & Presentation

The data collected and entered by students shall then be cleared & used to answer a few common research questions.

The Students shall then prepare

- A report their findings to the research questions posted
- A power point presentation featuring to key questions of the research

These reports shall be compiled & submitted for further analysis to the Quality Management team & Hospital authorities. A presentation shall made to be a full house of the Clinical Governance Body of the Institute consisting of Dean, MS, NS, QMS & all faculty.

Phase 4- Program Evaluation:

As a part of the program, you shall also be required to take part

- (i) Daily review feedback
- (ii) Focused group discussions
- (iii) Post test and
- (iv) You will be observed during the patient interviews.

C R e A M S – Program Evaluation

Format of Focus Group Discussions

- 1) Welcome
- 2) Introduction to CReAMS – The objectives & process
- 3) Purpose of Focus Group Discussion
- 4) **Establish Ground rules**
 - We would like you to do talking
 - Everyone will participate I may call upon you, if I haven't heard from you
 - There are no right or wrong answers
 - Everyone's opinion counts what is said in this forum stays here we will be recording this conversation
 - Phones to be silent/switched off
 - No side conversations – All points to be addressed to the group
 - Only one person will speak at a time
 - If you don't agree to a viewpoint, say so. Don't criticize
 - Talk to all with respect
- 5) **First Question**

What do you think of the program?

THE REGISTRAR
SRI BALAJI VIDYAPEETH
(Deemed to be University via 2002 ACT, 1956)
Accredited by AACSB with A Grade

Focus Group Discussions

Group1: Educational Leadership

Panel members:

- Dean
- Dr.Ghose
- Dr.Reddy
- Dr.Kan
- Dr.Adkoli
- Dr.Tirou Arul
- Dr.Jayasingh

Date : Tuesday, 30th Aug, 2-4PM, MEU

Purpose: Program objectives, design and Refinement

Program Goals:

1. Exposure to clinical audit/research tools
spin-off
 - a) Learn to use excel & other tools
 - b) Data collection
 - c) How to collate data
 - d) Preparation of posters/reports/presentations
 - e) Learn to present findings
 - f) Present in conference/forum/journal.
2. **Facilities & services workflow process**
 - a) Inter – professional education
 - b) Role of various personnel in the hospital setting
3. **Profile of the MGMCRI Patients**

What do patients expect from HCS
4. **Self Improvement**
 - a) Presentation skills
 - b) Communications
 - c) Professionalism
 - d) Empathy
 - e) Scientific approach

Questions:

- i. Educational objectives & Project design
- ii. Do they correlate?

- iii. Project Planning
- iv. Scientific rigor of Design
- v. Impact on students
- vi. Impact on the hospital?
- vii. Place in the curriculum
- viii. Suggestions for improvement

Group 2: Students from previous batch (Not exposed to CReAMS)

Purpose: Program design

Questions:

- i. Purpose of the project-Do you see it fitting in our curriculum?
- ii. Do you think it will be beneficial to the students?
- iii. Do you think it meets its designed objectives?
 - a) Exposure to research methodology/audit
 - b) Hospital services & facilities
 - c) Patient profile
 - d) Patient expectation
 - e) Hospital workflow & pathways
 - f) Quality of care indices
 - g) Teamwork
 - h) Professionalism
 - i) Comm. skills
 - j) Basic research tools-usage

THE REGISTRAR
SRI BALAJI VIDYAPEETH
(Deemed to be University u/s 3 of UGC ACT, 1956)
Accredited by NAAC with 'A' Grade

Group 3: Students exposed to CReAMS last year

Understand, refine & Progress towards outcome

Question:

- i. Your experience
- ii. Was the time well spent?
- iii. Were you adequately prepared?
- iv. Have you learnt anything significant?
- v. What worked
- vi. What didn't work
- vii. Suggestions for improvement
- viii. Newer elements in CReAMS 2016-how relevant they will be?
- ix. Do you think it made a difference?

Group 4: Students from present batch (regular > 10 sessions)

Understand, refine & Progress towards outcome

- i. Your experiences
- ii. Time well spent?
- iii. Sufficient learning opportunities?
- iv. Enough chances to interact with patients?
- v. Were you adequately prepared for the tasks given?
- vi. Will this experience be of personal use to you?
- vii. Will the efforts be of use to the hospital?
- viii. Did it stimulate interest in research?
- ix. Will you do it again?
- x. Do you recommend its place in the curriculum?
- xi. Suggestion for improvement of program
- xii. Program objectives fulfilled?
 - a. Exposure to research methodology/audit
 - b. Hospital services & facilities
 - c. Patient profile

THE REGISTRAR
SRI BALAJI VIDYAPEETH
(Deemed to be University) Act 3 of UGC ACT, 1956
Accredited by NAAC with 'A' Grade

- d. Patient expectation
 - e. Hospital workflow & pathways
 - f. Quality of care indices
 - g. Teamwork
 - h. Professionalism
 - i. Comm. skills
 - j. Basic research tools-usage
- xiii. Did the program meet your expectations)
- xiv. Ease of filling up to form
- xv. Ease of data entry & compilation
- xvi. Faculty role

Group 5: Students from the present batch
(who are not attending/ who have a poor attendance)

- (i) What do you think about program?
- (ii) Why 'No show' or 'Poor attendance'?
- (iii) hat could be done to improve your participation

THE REGISTRAR
SRI BALAJI VIDYAPEETH
