MAHATMA GANDHI MEDICAL COLLEGE AND RESEARCH INSTITUTE

OFFICE OF DEAN

**VALUE ADDED COURSE ON
SYSTEMATIC TRAINING PROGRAM FOR INTERNS**

Course Content

MAHATMA GANDHI MEDICAL COLLEGE AND RESEARCH INSTITUTE

OFFICE OF DEAN

OVERVIEW

The systematic training program for interns is a value-added course, that engage the interns and specialize them in the basic skill set that are essential for a doctor to assess and perform them with confidence in and outside their alma mater.

CATHETERIZATION:

This patient presents to you with acute retention of urine. Catheterize this patient.

Catheterization station:

S. No.	Index No.	Marks
1.	Introduces self/gets consent	1
2.	Uses sterile precautions	1
3.	Cleans the parts properly	1
4.	Lubricates catheter adequately	1
5.	Introduces correctly	1
6.	Connects to urobag	1
7.	Checks for urine flow	1
8.	Inflates balloon	1
9.	Fixes catheter to thigh	1
10.	Thanks patient and tidies up	1
	Total marks	10

Materials required:

1. Male catheterization mannequin with simulated urine preloaded
2. Foley's catheter 16G
3. 10 cc syringe *2
4. Gloves (1 pair/candidate)
5. Simulated cleaning solution, gauze and sponge holder

6. Lubricating jelly
7. Kidney dish
8. Appropriate disposal bag for biohazard waste

NG TUBE INSERTION:

This patient requires nasogastric tube feeding for dysphagia secondary to partially obstructing carcinoma oesophagus. Insert the provided nasogastric tube into the stomach of the mannequin and explain precautions to be taken to ensure safe NG feeding.

Observer check list for NG tube insertion:

1. Takes consent and explains procedure	
2. Uses personal protection	
3. Lubricates tube adequately	
4. Inserts tube gently through nose	
5. Asks patient to swallow at correct time	
6. Ensures correct tube placement by auscultation while injecting air/aspirating gastric content	
7. Explains need for check X-ray	
8. Explains feeding protocol (clear water followed by escalating liquid feeds, aspiration every 4 hours to rule out gastric stasis))	
9. Explains proper NG tube care (flush after every feed, sterile precautions while feeding, proper NG tube closure after feeds)	
10. Thanks patient	
Total marks (out of 10)	

Materials required:

OFFICE OF DEAN

1. NG tube insertion mannequin
2. NG tube size 16
3. Gloves (1 pair per candidate)
4. Lubricating jelly
5. Gauze
6. Kidney tray/galipot
7. Stethoscope
8. 20 cc syringe

RECTAL EXAMINATION:

This patient complains of increased frequency of micturition with difficulty in initiating urination and poor stream. Perform a rectal examination for the patient and give your findings.

Observer check list for rectal examination

	Roll No
11. Takes consent and explains procedure	
12. Uses personal protection	
13. Inspects anus	
14. Lubricates finger adequately	
15. Inserts finger correctly	
16. Palpates all walls of rectum	
17. Describes findings correctly	

THE REGISTRAR
SRI BALAJI VIDYAPETH
(Deemed to be University) Act 3 of UBCACT, 1956)
Accredited by NAAC with 'A' Grade

OFFICE OF DEAN

18. Inspects finger on withdrawal	
19. Wipes anal jelly	
20. Thanks patient	
Total marks (out of 10)	

Please give one mark for each correct step

Materials required:

1. Rectal examination mannequin with nodular prostate
2. Gloves (1 pair per candidate)
3. Lubrication jelly
4. Gauze for wiping
5. Torch

SUTURING:

Apply one vertical mattress suture using the materials given.

Suturing station:

S. No.	Index No.	Marks
1.	Introduces self/gets consent/explains procedure	1
2.	Uses sterile precautions, cleans and drapes	1
3.	Handles needle safely	1
4.	Holds needle correctly in needle holder (junction of 2.3 and 1/3 from the needle tip)	1
5.	Holds dissecting forceps correctly	0.5
6.	Lifts wound edge with dissecting forceps at appropriate site	1

MAHATMA GANDHI MEDICAL COLLEGE AND RESEARCH INSTITUTE

OFFICE OF DEAN

7.	Passes needle through tissue 1cm from wound edge on each side	1
8.	Ties a triple throw reef knot	1
9.	Ties knot with enough tension just to approximate wound edges	1
10.	Cuts suture to appropriate length (0.5-1cm)	0.5
11.	Correctly disposed of sharps	1
	Total marks	10

Materials required:

1. Suture material with needle
2. Suturing simulator
3. Instruments
 - a. Needle holder
 - b. Dissecting forceps (toothed)
 - c. Suture cutting scissors/ straight Mayo's scissors
4. Gloves, mask
5. Gauze and simulated cleaning solutions
6. Sharps disposal box

WOUND DRESSING:

Use the materials provided to clean and dress this wound

Observer check list for wound dressing

	Roll No
21. Takes consent and explains procedure	
22. Uses sterile technique	

THE REGISTRAR
SRI BALAJI VIDYAPEETH
(Deemed to be University) Act 3 of UGC ACT, 1956
Accredited by NAAC with 'A' Grade

23. Uses proper no touch technique	
24. Cleans the wound surroundings properly with antiseptic	
25. Avoids vigorous cleaning of raw wound surface	
26. Applies antiseptic ointment to raw area	
27. Covers wound with sterile gauze with enough layers to prevent soakage	
28. Ties and secures bandage correctly	
29. Explains dressing care precautions to patient	
30. Thanks patient	
Total marks (out of 10)	

Please give one mark for each correct step

Materials required:

1. SP/ mannequin limb with strap on wound
2. Gloves (1 pair per candidate)
3. Antiseptic cleaning solution (simulated)
4. Gauze (1 sterile pack per candidate)
5. Antiseptic ointment
6. 4 inch crepe bandage/ cotton bandage*5
7. Kidney tray/galipot

09.08.19	MEU	Team work	Team Psychiatry
	E-library	ECG I	Team General Medicine

Detailed report of the program

The 3rd systematic training programme for the CRRI (July-Sept 2019 batches) was conducted as per instructions of the honorable Vice Chancellor, Dr. S.C Parija, as a value added course. It was a 2day SBV value added interdisciplinary program that was organized & conducted by MGMCRI, SBV university, on 8th & 9th August, 2019 at MGMCRI Campus, Pondicherry.

The target audience were CRRI (April- June 2019 batches). Four departments were involved in the 3rd systematic training program like Team Anaesthesiology, Dr.Tirou Aroul + Team General Surgery, Team Psychiatry, Team General Medicine. There were a total of 8 resource persons from various specialities & disciplines.

The course commenced at 8.00 am on 08.08.19 at Hospital Block a welcome address to participants and resource persons by the Course Coordinator. It also included providing brief information about the structure and various components of the course along with expectations from participants; and introducing coordinators and other support staff to be present over next two days. This was followed by participants signing their attendance and then administering the Pre-test (electronically on mobiles) to all of them. The pre test comprised a set of 15

EVENT REPORT FORM

multiple choice questions involving various scenarios with a weightage of two marks each. The first session started at 8.00 am. Attendance from participants was once again obtained before wrapping up the day's sessions.

On the second day i.e.09.08.19 once again after marking attendance for participants. The sessions focused on various aspects and contexts within members of a healthcare team (last session of the day). Each of the sessions lasted for 3 1/2 to 4 hours; which included power point presentations interspersed or followed by video demos and/or group tasks related to the lecture followed by interactive discussions and clarifications with audience and summing up the topic. Tea and lunch breaks were provided at appropriate times. The course ended with collecting feedback electronically (using specially prepared google forms on mobiles) from participants about the course. This was followed by electronic administration of the Post test with the same set of questions, this time with access to correct answers at the end. Finally, a vote of thanks was delivered by the coordinator.
