**INFINITI - Mind Mapping Learning Model**

**INTRODUCTION:**

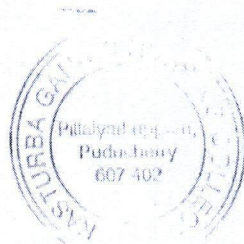

INFINITI - Mind mapping and Learning Model is an intellectual way to guide students to methodize learning message on any theme. It makes subjects easier to understand. Making use of different colour and pictures help students focus their attention and concentration and assists in creating newer concepts and directs them to go forward to other topics. Mind maps equip students to shape, form and finish learning.

A Mind Map is a compelling graphic execution that acts as a universal key to liberate the inherent abilities of the brain. It initiates the abilities of written, drawing, numerical, logic, rhythmic, selecting colours as a specific skill. It creates the way to precede the brains abilities independently. It is applicable for each aspect in life where advancement in learning and luminous thinking will better the human performance.

**OBJECTIVES:**

- Facilitate the students to develop a new learning strategy.
- Enhance the learning skills of all students and especially students needing additional curricular support.
- Achieve the goal of advanced understanding and retaining information on deepest level of any topics with lesser study time.
- Provide confidence to meet the challenges in examination
- Synthesizes the ideas of teacher to teach certain complicated topics for students better understanding

## INFINITI - Mind Mapping Learning Model

### Identification

This Phase starts with identification process after skimming and reading the course. The students should be learned the content material to be learned. This process involves identifying the central idea and related ideas which radiates out from the core idea. Learner used to concentrate on the structure, hierarchy, order and outlines of the content.

### Note Making

It is done based on the concepts with selection of key words connected using linking words forming propositions. This gives the maximum space for the other ideas to radiate out from the centre. Propositions making is a skill out critical and creative thinking without deviating from the text concepts.

### FINding Creativity

This phase involves real challenging tasks. Choice of style, use of icons, colour, dimensions, codes on the concepts. By keywords propositions personalising the map with own symbols and design helps to construct visual and meaningful relationships between ideas which will assist in recall and understanding.

### Interrelationship Linkages

It is promoted by the use of main branches, sub-branches, cross links, show interrelationship between different map segment. The lines and arrows showing connection between ideas generated on mind map. This relationship may be important in understanding new information.

### Thoroughness of Information

It emphasis checking the totality of information used and presence of entire content, if it is inadequate, it directs to modify the information and it create association between the ideas.

Report on INFINITI - Mind Mapping Learning Model

Date : 26.07.2017  
Time : 2.30 pm – 4.00 pm  
Venue : I Year – Classroom, KGNC.

**Members:**

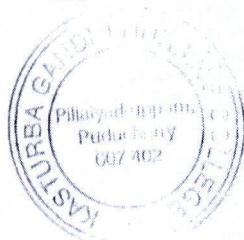

- Prof. Dr. Renuka K, Principal, KGNC
- Mrs. Jayanthi K, Asst. Prof.

A lecture cum work-session on INFINITI - Mind Mapping Learning Model was organized for the B.Sc. Nursing I year students on 26.07.2017 between 2.30 pm – 4.00 pm in I year – classroom, KGNC.

Principal of KGNC **Dr. Renuka K** rendered the overview about INFINITI - Mind Mapping Learning Model and motivated the students and asked them to fully utilize the session and draw the benefits out of it and asked them to follow INFINITI - Mind Mapping Learning Model as a shortcut method of learning in study holidays and for future learning that helps to maintain a sustainable knowledge. **Mrs. Jayanthi K** deliberated mind mapping techniques.

As a part of the INFINITI - Mind Mapping Learning Model activities like drawing Mind Mapping & writing test was conducted for improving the concentration of the students. Students performed all the activities very enthusiastically.

Oral feedbacks obtained from the students. The reciprocation of the students is they found it to be highly beneficial and they thanked for the opportunity provided. They said that it helped them to erase their fears out of their mind and they gain confidence to face the following exams.
