In Healthcare system, the Nurses assume a pivotal role in the delivery of Quality Healthcare & the enhancement of Nursing Profession can be best achieved by an education appropriate to the advances made in Medicine & Technology. Though the Diploma/Degree programme in Nursing & Midwifery prepares a "Nurse to be"; the training is limited to developing the basic skills & concept in nursing practice.

With accelerating Scientific, Technical & Social changes, the Nurses are challenged to be more accountable. The clients are becoming critical of the care & demand Efficiency, Economy & Quality assurance. Therefore, the Nurses too, have to respond to changing times & new demands by taking added Responsibilities & Expanded roles.

Critical Care Nursing Excellence Course is designed to provide an educational framework and clinical support to assist Nurses in developing a career pathway in Critical Care Nursing practice.

This programme is developed with an aim to assist Nurses who are experienced in the field of Critical Care Nursing. This programme is focused to build on the foundation of Critical Care Nursing Competencies possessed by experienced Nurses & thus, enhance Patient Outcomes in Critical Care Settings.

## AIM

The Over-all aim of the programme is to offer comprehensive insight, impart skills & encompass knowledge of wide spectrum of science & art of Comprehensive Nursing, enriched by experiences in Critical Care Nursing Practice & wide exposure to Medical technology & equipment & its Clinical management practice.

## OBJECTIVES

- The nurse is able to learn & practice Advanced Nursing Care directed towards the client's improvement in Health/ Recovery/ Provision of support in grief
- The nurse is able to function confidently & effectively in a Critical Care Setting.
- The nurse is able to function competently in dealing with Medical/Surgical Emergencies as per the need of Critical Care Setting.
- The nurse is able to apply & practice advanced Medical Technology in delivery of Nursing Care.
