## A CERTIFICATE COURSE IN Hospital Infection Control

# Q-TEAM

### SYLLABUS

#### Introduction:

Infection is one of the most dreaded adverse events associated with healthcare delivery, accounting for considerable morbidity, mortality and cost. Although sometimes unavoidable, a significant proportion of healthcare associated infections could be prevented by better quality clinical practice. Though all healthcare practitioners are responsible for ensuring consistent delivery of high quality clinically effective care and protect patients from the risk of infection, the support of an "Infection Control Practitioner" can play a vital role in ensuring that all Health Care Workers (HCW) adhere to the correct infection control practices. Thus one can prevent a large number of infections with improved healthcare delivery and patient outcome. In view of the improved quality conscious society and the necessity of NABH accreditation, an Infection Control Nurse (ICN) is a mandatory requirement. HCWs trained as "Infection Control Practitioner" will be able to function effectively in hospitals or any healthcare institutions as far as prevention and control of healthcare associated infections are concerned. During this course all the aspects of HIC will be covered.

#### Objective:

**Aim of the training:** Aim: The aim of the course is to train the students of Medical, Dental, Nursing and Allied Health Science students and medical practitioners so as to provide a well supervised expertise in the field of hospital infection control. **Objective:** This program is an endeavor to prepare healthcare professionals for implementation of hospital infection control activities in their day to day practices to prevent hospital acquired infections.

**Organization of Training:** Course Content: The course consists of 2 Day with 16 Contact Hours which includes theoretical and practical training in the following aspects of hospital infection control:

*This document is attested from pages 1-16*

REGISTRAR  
SRI BALAJI VIDYAPEETH  
(Deemed University u/s 3 of UGC ACT, 1956)  
Accredited by NAAC with 'A' Grade  
Pillaiyarkuppam, Pondicherry-607 402.

**Background:** Historical journey, organization of hospital infection control, journey of antimicrobials, current scenario and challenges in hospital infection control. Immunocompromised host and special scenarios. Candidates will be introduced to the basics of hospital acquired infections (HAI). The available data on the rate, incidence of hospital acquired infections, their common causes, other epidemiological aspects, their influence of patient outcome and financial implications in developing countries like India will be discussed with them. The overview of the course will be given to the candidates. **Routes of transmission and their prevention:** Various routes of transmission of infection and methods of prevention of infectious diseases in hospital settings. **Infection control programme organization:** Role of hospital administration in hospital infection control, hospital infection control committee, infection control team, role of ICN, other staff, infection control manual, introduction to surveillance of hospital infection control. **Surveillance:**

challenges in routine patient care, antimicrobial stewardship, antibiotic policy and its significance in reducing AMR in hospital. **Vaccination:** Role of vaccination in reducing severe HAI such as Hepatitis B, H1N1 and other hospital acquired infections. **Important vaccines in HIC** such as Hepatitis B, H1N1, MMR, chickenpox. **Blood spill:** Management of blood spill with practical demonstration using simulated conditions. **Hand hygiene:** The role of hand hygiene in hospital acquired infection. Steps of hand washing and related topics will be dealt in detail. **Environmental surveillance:** Disinfection of OT & ICU and taking surveillance cultures from critical areas, setting up surgical site infection surveillance in hospital.

**Assessment of Training: - Exit Examination :-** As per the Institutional guidelines The certificate is awarded after a final exit examination, at the end of the 6 weeks training period.

**Supervision:** Initially, the trainee will be fully supervised by the Faculty posted in the area.

The academic activities of the program in the hospital would include :- Regular academic sessions Bedside practical training Onsite Surveillance Activity To sum up: The goal of the Certificate Course in Hospital Infection Control is to train healthcare workers to undertake infection control practices so as to:

1. Reduce the menace of hospital acquired infections.
2. Reduce associated increased antimicrobial use and consequent resistance.
3. Reduce associated morbidity and mortality
4. Reduce the treatment costs
5. Overall improvement in patient care and their outcomes.

## PROFILE OF THE TRAINER

Dr. Santwana Vernekar is a Quality Professional Par Excellence, a rarely found "Woman Entrepreneur in the field of Quality". Her passion and commitment for spreading "Quality in Healthcare" to remote areas of India brought her as one of the most sought-after quality trainer and mentor. 25 years of experience in Quality and its Application in healthcare makes Dr Santwana one of the Top Leading Entrepreneurs in the field of Quality. Q-TEAM founded by Dr. Santwana is the pioneer and leader in innovative healthcare education and implementation. Dr. Santwana and her team strive to provide the healthcare industry with all possible resources in form of training, education and technology to help them achieve their desired quality standards.

Dr. Santwana has been recognised and rewarded with many prestigious awards for her meritorious and valuable service:

- Dr Santwana Vernekar Awarded as the "Woman Entrepreneur of the Year" at Six Sigma Healthcare Excellence awards 2019 for her relentless contribution to promoting Quality in Healthcare and accreditation processes.
- Q-TEAM founded by Dr Santwana Vernekar was awarded the "**Best Quality Training Organisation of the Year**" At the Oscars of Healthcare awards " Six Sigma Healthcare Excellence Awards-2017"
- **The Healthcare personality of the Year- Quality** by the Ministry of Health ,Physician to the President of India, new Delhi at the 7<sup>th</sup> medical trade fair – Pragati Maidan, New Delhi , 7<sup>th</sup> April 2017
- Cited amongst "**TOP 50 Impactful Quality Professionals of India**" at WORLD QUALITY CONGRESS- TAJ LANDS END 23<sup>rd</sup> June 2016
- Awarded "**The Quality Leadership Award**" for healthcare industry at the world quality congress - Taj Lands end Mumbai on June 23<sup>rd</sup>, 2016
- **Best Doctor- Quality Management** at 6th MT Awards by Medgate today at Bombay Convention and Exhibition Centre. Mumbai
- "**RASHIRA RATTAN SAMMAN – 2016**" at constitution club of India on Jan 27<sup>th</sup> , 2016
- **Healthcare Excellence Award-2014 for Excellence in Quality Management** Awarded honors by The Indus Foundation in Association with IMA, Govt. of Telangana and FICCI on 22 June 2014, Taj Krishna, Hyderabad by hon dy. Chief minister and health minister Dr. Rajjaiah.
- **Medical Excellence Award-2014 excellence of services in field of Quality**
- **Six sigma healthcare excellence award-2013 BEST QUALITY MANAGER 2013**
- Along with her contribution to the healthcare industry, Dr. Santwana also believed in welfare service and social contribution. She has been a part of various social service camps and has served the society selflessly. 2005 -Conducted Blood Donation camps at Society and Political Campaigns and distributed informative leaflets on good health and nutrition.
