19	*Curricular innovations have been effectively incorporated.*	36.82	49.25	9.95	3.98	0.00

20. Remarks on the curricular innovations of the institution.

- Most of the faculties are not oriented to the new curriculum. The junior faculties are not interested to update the recent curricular needs.
- The curriculum is now too complex with its sub-competencies. They need to be simplified and be relevant to the sociodemographic situation.
- Orientation of the postgraduates to the curriculum and syllabus are strongly recommended.
- "Students are also encouraged to use LMS for acquiring knowledge.
- Slow learners are periodically mentored."
- good
- learning management system through which assignments are given.
- It is conducive for learning
- Excellent
- Well appreciated
- We are innovative, certainly. Are our students able to cope academic exuberance?

- encouraging and participatory ,
- Multiple teaching learning methods are adopted.Student feedback is taken periodically.
- you tube videos subject related , SGT AND SDL
- After the adoption of the CBME pattern, there is limited scope for innovations in the curriculum.
- Excellent
- flexible
- Well designed
- Curricular innovation is good
- Good job
- GOOD WITH ONGOING EVALUATION
- GOOD WITH ONGOING EVALUATION AND FEEDBACK
- Lot of efforts taken for improvement of knowledge of students.
- Good
- Early identification of slow learners and corrective and preventive action taken.
- good
- Clinical Key Anatomy educational program by Elsevier is used for the teaching of functional Anatomy. The text, diagrams and the videos can be linked to the learning management system. This offers the advantage of learning based on visual, auditory, reading/writing and kinaesthetic learning styles.
- Clinical key and LMS to facilitate learning.
- Medical curriculum must hold clinical exposure standards stronger than theoretical part

Good one

Applicability and feasibility is not properly addressed

SBV ganesha canvas though a sophisticated system but not very user friendly. So many departments are not using as I feel so. Every one is not a techie guy to use such an interface. Make it in the simplest way possible

problem based learning and integration in specific topics provides good base for students

OSPE in practical exams.
Exit-OSCE for CRRIs
Biochemistry Lab Medicine Postings for Phase-2 MBBS Students.
Use of Kobo Toolbox for Assessment.

It is good

Should fulfil the need of the community and assessment to include attitude of the student.

Its a continual improvement process

Highly useful

Innovations are good only we need to add few recent advancements.

Modifications should be made with system based syllabus

I Appreciate.

no remarks

Good

Hood

Competencies of the entire curriculum were well grouped into teaching learning units. The teaching learning units were then converted into lecture classes and short group teaching. Assessment methods were specified to all competencies.

All the curricular innovations suggeted by the MCI have been effectively incorporateed by the Institution.

excellent

Development of the Museum and Mock Court for Undergraduate Students training.

Assessment need to be done in an integrated manner. Timetable can be floating timetable rather than a fixed one.

Few topics re omitted from previous

It is incorporating multiple levels of faculty inputs.

MGMCRI curriculum team incorporates feedback and suggestions from all faculty so as to suit the needs of all students

In a subject like Biochemistry that is ever expanding , there is an immediate need to call for mandatory mid term revisit/revision of the curriculum by the BoS and more so , this being the first year of implementation of the Competency based medical education. Otherwise, the program is coasting along in the right direction.

More Focus given to Problem based learning to have a clear view about the concept.

Overall Good

Exposure to community health assessment and interventions given importance

We have the freedom of expression at MGMCRI,SBV. Will definitely bring about a good change in Biochemistry curriculum in near future.

Very innovative,skill based,competency based

Clinical Department

37 responses

Good

None

the present syllabus covers indepth the knowledge which the student should gain at the end of three year residency.But the way in which assessment is done needs major revision

It's good .

Concentrating on patients, patient care and proper teaching students by already existing senior faculties will yeild much better results.

It's good

Each Faculty should attend Curriculum related meeting..and if busy in clinical patient Care ,then at least periodic input from each faculty should be there related to curriculum ,thanking you..Dr.Gayatri Mishra,Associate professor ,Anaesthesiology.

No remarks

Integration is good,

Competency based postgraduates training through EPA was a remarkable developement.

Eportfolio is a very good platform for reflective learning.. Hope the postgraduates realise the importance of this tool.
It would be nice if we had interdepartmental teaching-learning classes for pgs

Up to the mark

Since MCI has specified it quite clearly and it has been designed & approved by true experts, we just need to implement it sincerely, instead of spending too much effort in trying to improve it further.

This is one of the Institutes that has incorporated competence based medical education for medical graduates, e portfolio and self assessment for postgraduates.

Keep it up

Therapeutics is not in the regular teaching. It is added on. Should be incorporsted as regular teaching.

Falling in line with the MCI atcom module.
EPA and ePortfolio for PGs

Well planned

Providing internet (to use kahoot/voxvote/testmoz/polllev etc) and multiple teaching learning media for large group classes
Blueprinting teaching learning methods for core competencies , addressing all 3 domains
Blueprinting subject wise assessment methods based on weightage and objectives

There is scope for further improvement

Fair enough

Doing well

Institute gives adequate importance to curricular update & innovation and is now keenly focussing on the implementation aspect. But the speed of implementation remains an area of concern.

Curriculum is good and has been on par with any other institution of national importance.

need of the hour

Done periodically

State of the art. We will appreciate regular inter state collaboration for exchange of ideas and innovations.

Systematic and updated

FEEDBACK REPORT

Feedback obtained on CURRICULUM (please mention if the feedback is obtained on Curriculum OR Syllabus).
Feedback provided by FACILITATORS (please mention if the feedback is obtained from Student OR Teachers OR Alumni OR Employers OR Professionals)**.**
Feedback obtained from JUNE 2023 (Please mention in which month and year the feedback was obtained)

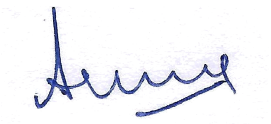
S. No.	Details	Remarks
1	Total number of participants to provide feedback	57
2	Total number of participants who provided feedback	50
3	Percentage of feedback responses collected	88%
4	Positive pointers	Early clinical exposure for undergraduates which help them to correlate them to do integration Kit based learning and LMS are good EPA and OSCE examination MDN and Blueprint
5	Suggestions/ recommendation to improve	Institute can conduct project day so that students can show case their innovations Need Competency based curriculum

The comment on what other new courses/ subjects/ programs/ trainings could be included in the curriculum were:

- Statistics
- Advanced orthodontic procedures
- Palliative care
- Trauma management
- Training on conscious sedation

FEEDBACK REPORT

- Training in forensic dentistry
- Communication skills, Practice management knowledge in handling equipment.
- Tobacco cessation programme for undergraduates
- Advanced surgical techniques (General, Periodontology & Implantology)



Endorsed by: Dr. Aruna Sharma, Principal, IGIDS

ACTION TAKEN REPORT

Feedback obtained on ***Curriculum***
Feedback provided by ***Facilitator***
Feedback obtained from June 2023

The following actions were taken based on the feedback analysis and report:

S. No.	Observations from feedback that warrants action	Action taken
1	Institute can conduct project day so that students can show case their innovations	Initially science day was observed. The same can be reinitiated.
2	Need Competency based curriculum	To discuss with HODs and curricular committee.
3	Suggestions for new courses	To be discussed with the feedback given by students and alumni with Staffs and curricular committee.

Endorsed by: Dr. Aruna Sharma, Principal, IGIDS

FEEDBACK REPORT

FEEDBACK FROM FACILITATORS ON CURRICULUM AND SYLLABI

Annexure-A

Suggestions/ recommendation to improve	Kindly include Problem based learning and role play may useful to express the student's talents compared with conventional teaching method.
	Students should learn innovation and entrepreneurship training.
	Curriculum beyond the syllabus should be incorporated as required by pharmaceutical industry.

FEEDBACK REPORT

FEEDBACK FROM FACILITATORS ON CURRICULUM AND SYLLABI

ACTION TAKEN REPORT (ATR)

Sr. No.	OBSERVATIONS FROM FEEDBACK THAT WARRANTS ACTION	ACTION TAKEN
1	Kindly include Problem based learning and role play may useful to express the student's talents compared with conventional teaching method.	Over conventional teaching methods, the LMS Moodle platform has been employed for teaching at the SBV university level. Problem-based learning or role-playing learning or any other ICT based learning are fully contingent on how the facilitator decides to exhibit students' talents. Facilitators are periodically exposed to the latest teaching methods through faculty development programmes and webinars by renowned academicians. The facilitators and students shall be sensitized in adopting efficient pedagogy ASAP.
2	Students should learn innovation and entrepreneurship training.	Students were educated on intellectual property rights and encouraged to innovate and file IPRs. SOP students successfully submitted and published a design IPR. The students & facilitators shall be sensitized with the help of IPR cell ASAP.
3	Curriculum beyond the syllabus should be incorporated as required by pharmaceutical industry.	The university has collaborated with the National Skill Development Corporation under the "Pradhan Mantri Kaushal Kendra" scheme to provide students with value-added skill development opportunities in the pharmaceutical industry sector, and twenty students have enrolled in the programme of study.

ACTION TAKEN REPORT (ATR)

Feedback obtained on *Curriculum and Syllabus* .
Feedback provided by Teachers
Feedback obtained from July 2023

The following actions were taken based on the feedback analysis and report, for the period of 2023/2024

S. No.	Observations from feedback that warrants action	Action taken
1	To add flipped method of teaching and learning	• We will plan for the sensitization and training sessions for the faculty to facilitate flipped teaching methods in near future
2	To organize various career development programs	• Various programs like seminars, workshops, conference, CNE & FDP are organised in the college. • In the SPP 2023-2024 we have added guest lecture sessions for the faculty and students to enhance their knowledge
3	To add guidelines for multimedia learning to enhance knowledge for nursing informatics	• Recognizing the value of multimedia in enhancing understanding, our faculty members are incorporating multimedia resources like videos, animations and interactive simulations wherever applicable in their teaching

18.	**Curricular innovations have been effectively incorporated.**	43.66	45.50	9.76	1.08	0

19. Please provide your remarks

- Overall curriculum contains cognitive, affective and psychomotor domains which is essential for student's future.
- Need more practical session and practical handling classes
- Need more value added courses
- Moodle LMS need to be improved

FEEDBACK REPORT

FACULTY ON CURRICULUM & SYLLABI

Feedback Obtained on **Curriculum or Syllabus**
Feedback Provided by **Faculty of SAHS, MGMCRI**
Feedback Obtained from **June 2023**

S.No	Details	Remarks
1	Total Number of Participants to provide feedback	22
2	Total Number of Participants who provided Feedback	22
3	Percentage of Feedback responses collected	100 %
4	Positive pointers	• Overall curriculum contains cognitive, affective and psychomotor domains which is essential for students future • Excellent Curriculum
5	Suggestions / Recommendation to improve	• Need more value added courses • Moodle LMS need to be improved - so many bugs • Syllabus need to be changed in semester pattern

Compiled by

Feedback Monitoring Committee, SAHS, Puducherry				
Signature with Date				Name	**Mrs. P.Lavanya Assistant Professor in Microbiology, SAHS, MGMCRI**	**Mrs. D.Sowmya Assistant Professor in Computer Science, SAHS, MGMCRI**	**Mr. Sourav Das Assistant Professor in Microbiology, SAHS, MGMCRI**	**Ms. Tamilarasi K Assistant Professor in Clinical Nutrition, SAHS, MGMCRI**

ACTION TAKEN REPORT (ATR)

Feedback Obtained on **Curriculum or Syllabus**
Feedback Provided by **Faculty of SAHS, MGMCRI**
Feedback Obtained from **June 2023**

The following actions were taken based on the feedback analysis and report for the period of June 2023.

S.No	Observations from feedback that warrants action	Action taken
1	Need more value added courses	Value Added courses will be segregated based on their respective programmes for the benefit of the students
2	Syllabus need to be changed in semester pattern	It will be implemented in the academic year 2023
3	Moodle LMS need to be improved - so many bugs	Informed to MI Department, action will be taken at the earliest.

Compiled by

Feedback Monitoring Committee, SAHS, Puducherry

Copy

5 responses

Please provide your remarks on the curricular innovations of the institution:

5 responses

very updated and relevant

The curriculum seems to be innovative, but cann't comment as I am not aware of the whole cirruculum innovations.

Credit based course with Electives; Heutagogy mode of self determined learning by the group, which fosters "community of learners"; Assessment is based on reflective log book, assignments and applied questions based on real-life tasks; the use of LMS and distance mode course conduct; these are the noticeable changes since HP Education courses were launched in 2014-'16

The course is an innovative one in that it is based on the CBCS principle. A blended and Heutogogy model is adopted for content delivery. Curriculum has been dynamic to accomodate the needs of stakeholders. The blended approach has given an opportunity to expand its geographical reach.

Heutagogy (self-directed learning) facilitated in blended mode with portfolio as part of the summative assessment

Please comment on what other new courses/ subjects/ programs/ trainings must be included in the curriculum

5 responses

at present no

As I haven't had an opportunity to see the full curriculum, it is not possible to comment.

AI as a tool for HP Educators

Digital learning, AI in education.

Role of artificial intelligence in HPE

Please comment on the online classes

5 responses

We r in synchronous hybrid mode. Attendace is poor at times

The class was conducted well and was attended by most of the students, and they participated actively in the discussions. The presenter was well prepared and presented the topic confidently and was able to respond to the queries.

Well attended. UDL design takes care of those who miss live sessions by offering recorded sessions for asynchronous learning

The online sessions ensures direct and synchronous learning. It also enables participants to directly interact with faculty despite differences in time and location.

Facilitated well by moderators and candidates are benefitted by easy access

Remarks

Break down of modules into an extra paper in the first semester may be implemented to reduce burden on one paper- paper 2- Bio psychosocial perspectives
Nil
More of practical sessions to be conducted in adopting world music in the realms of evidence based patient care, safety, comfort, choice .....all related to Music as a tool of wellness
Some of the important topics of music therapy have not been given equal weightage. Bio-psycho-social approaches shouldn't be in one module. It is an overload for students and injustice to the volume of topics.
Research methodology module needs to be included for master's degree programme.
Since it is a new course there are scope of review

DATA TEMPLATE FOR FEEDBACK RESPONSE

The institution stays updated with the field very effectively and also provides an environment and teaching to students to become efficient professionals.
Training in the use of telehealth as part of the curriculum to reach parts of rural India where access to therapy services is limited is highly encouraged to provide wider outreach and more affordable support.

DATA ANALYSIS FORM

Students on Curriculum and Syllabi

9	It is possible for me to complete the clinical case requirement on time.	39.41	52.12	5.54	0.00	2.93
10	The use of different methods of training (lecture, small group discussions etc) is very interesting for me.	35.18	50.16	7.82	3.58	3.26
11	Use of computers, multimedia, LMS etc makes the subject very interesting.	37.79	52.12	5.54	1.63	2.93
12	The books and journals specified as references, is useful for self-learning.	34.20	55.37	3.26	5.21	1.95
13	I am provided with the blueprint of the question paper and the model question paper that is useful for exam preparation.	42.02	48.21	5.86	1.95	1.95
14	The exam assessment criteria and marks allotment are told to me beforehand.	40.39	49.51	7.17	0.98	1.95
15	I am given enough opportunity to freely express my opinion on my subject and the course.	37.13	53.09	7.17	1.63	0.98
16	New changes incorporated periodically in the curriculum is useful in enhancing the skills/knowledge and attitude.	38.76	49.19	7.49	2.61	1.95

18. Remarks on **the new changes incorporated in the curriculum.**

- More time to be dedicated for clinical skills
- Curriculum provides scope for early clinical exposure
- Satisfactory
- Good
- Very good
- Overall impression good

- Clinical case discussion can be more importance.

Not bad

It was very useful

Online classes helped me to keep in touch with the subject and was interesting

Helped me to keep in touch with the subject

It was good

All classes were great

It was gud but little difficult for the practical classes

Online classes was smooth except the advantages of offline class

It was helpful but not as good as offline class where concepts were better understood and there was clinical understanding

Well oriented

Was good but practically we were little behind in clinical practice

Difficulty in internet issues for listening to class

All the classes were effective and no difficulty in understanding the concepts.

We had Internet issues but syllabus was completed

Nice

Classes was fine but we didn't saw
patients clinically

Theoretically we gain knowledge but lack of practical classes in general medicine make us not familiar in some systemic condition so we felt trouble In final year.Though medicine faculty helps us to understand it better.

Online classes played a key role in our education during pandemic.

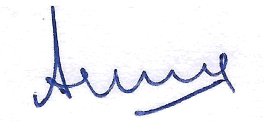
FEEDBACK REPORT

Feedback obtained on CURRICULUM (please mention if the feedback is obtained on Curriculum OR Syllabus).
Feedback provided by STUDENTS (please mention if the feedback is obtained from Student OR Teachers OR Alumni OR Employers OR Professionals)**.**
Feedback obtained from JUNE 2023 (Please mention in which month and year the feedback was obtained)

S. No.	Details	Remarks
1	Total number of participants to provide feedback	67
2	Total number of participants who provided feedback	67
3	Percentage of feedback responses collected	100%
4	Positive pointers	LMS system was very useful / Good The changes are of information regarding the recent advancement The newly added VSAQ is interesting.
5	Suggestions/ recommendation to improve	Advanced techniques / recent advances can be taught to interns Need training on treating medical emergencies More hands on workshop Programs / training involving preparation for NEET MDS with tricks and tactics More clinical training needed It would be nice if postings are present in other corporates for better exposure Practice management courses and courses after BDS Fellowship courses are needed

- Rough 80% of the students strongly agreed or agreed to all the curriculum statements

FEEDBACK REPORT



Endorsed by: Dr. Aruna Sharma, Principal, IGIDS

ACTION TAKEN REPORT

Feedback obtained on ***Curriculum***
Feedback provided by ***Students***
Feedback obtained from June 2023

The following actions were taken based on the feedback analysis and report:

S. No.	Observations from feedback that warrants action	Action taken
1	Advanced techniques / recent advances can be taught to interns	To be included in intern training program after discussing with HODs and curricular committee.
2	Need training on treating medical emergencies and clinical training	Interns are already being trained in BLS.
4	Programs / training involving preparation for NEET MDS with tricks and tactics	SAF will be informed to conduct program on the said topic every year.
6	It would be nice if postings are present in other corporates for better exposure	It will be considered after discussion with HODs.
7	Practice management courses	SAF to take up the topic for the program.
8	Fellowship courses are needed	Value added courses have already been started.

Endorsed by: Dr. Aruna Sharma, Principal, IGIDS

FEEDBACK RESPONSE FROM LEARNERS

Feedback obtained on *Curriculum and Syllabi.*
Feedback provided by Learners.
Feedback obtained from July 2022.

S.No.	Feedback questions *(Please enter the questions from the feedback form)*	Number of responses				
		Strongly agree	Agree	Unable to comment	Disagree	Strongly Disagree
1	1.At the beginning of the degree program, I was briefed about what is expected of me to be a good health professional	35.7%	60.3%	-	-	-
2	2.At the beginning of the degree program, I was briefed about how I will be assessed and evaluated.	17.1%	50%	-	-	21.4%
3	3.The course is well scheduled that I will be able to complete on time.	15.7%	52.9%	-	-	22.9%
4	4.The timetabling provides me enough opportunity for self-learning also.	14.3%	55.7%	-	-	21.4%
5.	5.Additional courses, other the regular course, helps me to acquire extra knowledge and skill	20%	58.6%	-	-	20%

FEEDBACK RESPONSE FROM LEARNERS

	which will be useful for my career.					
6.	6.At the beginning of each year, I was briefed about what I should learn in each subject	18.6.%	54.3%	-	-	21.4%
7.	7.Recent trends and concepts in my field have been covered adequately in the syllabus	17.1%	55.7%	-	-	22.9%
8.	8.The clinical training that I will undergo is also clearly stated in the syllabus.	17.1%	55.7%	-	-	22.9%
9.	9.It is possible for me to complete the clinical case requirement on time.	30.2%	14.3%	-	-	20%

FEEDBACK REPORT

FEEDBACK FROM LEARNERS ON CURRICULUM AND SYLLABI

ACTION TAKEN REPORT (ATR)

Sr. No.	OBSERVATIONS FROM FEEDBACK THAT WARRANTS ACTION	ACTION TAKEN
1	Hospital training must be included.	The Pharmacy Council of India recommends that student's shall undergo either hospital or industrial training as part of their undergraduate programme. SOP seventh-semester undergraduate students underwent hospital/ industrial training during this academic year. The students shall be sensitized ASAP.
2	Daily Update in Pharma should be discussed in lecture hall.	Daily updates in the pharmacy sector are addressed and discussed in class as a best practice for enhancing students' knowledge. The students shall be sensitized ASAP regarding the best practices adopted in SoP.

Copy

14 responses

Please provide your remarks on the new changes incorporated in the curriculum:

14 responses

Excellent curriculum

Effective and less time consuming

New changes incorporated in the curriculum have been useful for me in regular regular teaching activities at my institute

Incorporation of discussions in LMS, assignments were very useful

The monograph writing introduction is a good concept

The curriculum is very interesting and easy to follow and understand

I welcome any new changes

They are helpful in learning.

Changes are helpful and keep us updated.

Huetagogy method is very new to me and very effective for my learning during the sessions

good

No comments

.

NA

Please comment on what other new courses/ subjects/ programs/ trainings must be included in the curriculum

14 responses

NA

This is excellent

Not applicable

Use of technology as add on course

Usage of ICT tools, methods of developing ICT materials etc

Innovations in assessment and mentorship

Student Psychology

PBL hands on workshop , stepwise training on OSCE/ OSPE station allocation, interaction with UGC senior staff on curriculum planning, moderation used under the university etc.

It's already going good.

Its already perfect.

None as the existing one is more comprehensive and complete

Not needed

.

Please comment on the online classes done

14 responses

Excellent and interactive sessions. Enjoyed a lot.

Weekly one class is enough
Should consider the systems followed in other countries also

Well conducted

It was highly interactive and done to the best possible mode

Online mode has helped all of us to attend courses which would have been difficult in offline mode

The classes were good and conducted in a professional way, however the only challenge I faced was the timing. Being a overseas participant it is a bit difficult to adjust to the timing of the session. Though I tried to adjust the timing, my current academic duties made it challenging to accommodate. However, the recorded videos are very helpful to follow the course, though I missed the interaction with co-learners

Good structure

Online classes are very interesting and informative.

Online classes are wonderful, easy to attend at our places and equally informative as offline classes.

Great discussions by moderators and participants and group activities are helpful. Recordings are more helpful in case of missed parts of session due to academic work and for relearning, revision and exam preparation.

the timing can be from 1.30 to 3.30 or 4pm max

Satisfactory

Well discussed

They were perfectly alligned

ACTION TAKEN REPORT (ATR)

- **Feedback obtained on -** *Curriculum & Syllabus.*
- **Feedback provided by** *Students*
- ***Feedback obtained from - July 2022 / June 2023***

The following actions were taken based on the feedback analysis and report, for the period of ***-June 2022 /June 2023***

Sr. No.	Observations from feedback that warrants action	Action taken
1	*Scheduling of classes*	*The classes are being scheduled and provided prior to start of the semester.*
2	*Assessment pattern*	*The BOS has made the assessment pattern more easily understandable and clear.*
3	*Additional courses*	Research methodology has been included into the syllabus and additionally , NPTEL course on Biomedical research is another added course. The syllabus also has included Skilled based electives apart from the options of picking online courses provided by the University and through NPTEL
4	Inability to complete clinical practice and submission of documents	Flexibility has been provided with documentation and submission of clinical practice documents for the purpose of the school as well as for submission towards examinations.

Good

The attempt at bringing in osce pattern of examinations was a useful one considering the fact that most foreign exams are now in this pattern. There is scope for implementation of mcqs in the exams as that is required to get through neet

I certainly believe the surgical training could have followed a step wise approach.. It all felt slow at the begining and a little too much too soon by the begining of 2nd year. Especially in cataract surgery i would have preferred if the faculty would have a healthy discussion weekly or monthly with the whole unit about the step i was doing and how to improve it.
For cataract surgery i would suggest the following schedule
Month 3-6 draping and instrumental holding
Month 6-9 tunnel making and side port incisions
9-12 month- capsulotomy by both can opener and rhexis using a forcep and cystitome
12-15 month nucleus delivery
15-16 month- iol implantation
16-18 month- refining the steps

The postgraduates dont need to do a complete surgery by 2nd year just each step for every patient on the particular ot day and not wash for just 1 case.

can remove very old and outdated concepts and syllabus and incorporate most recent updates

Very good university to study.

It was good. But when I studied they made new changes without getting proper permission and then they reverted back to the old system, which made it difficult to jump back again. Still the professors and staff where kind enough to help us through. Our college has the best medical educators, that I can say proudly. Our teachers are the best. But seriously need lots more in training and in practical skills.

The academic results in college was flawed, many innocent people suffered.

Aosta is waste of time and resources for doctors. Corporate have the same software but only nurses do the work on it not the doctors.

Everything is well and good.

I'm requesting you to kindly increase the stipend to CRRI'S

Nice

Basic has to be thought strongly and everyone should be given opportunity for assisting procedures during Internship period rather than giving interns more of clerical work .

I enjoyed this curriculum pattern and i was happy with it...And i have to tell this...MGMC was and is my second home...Thank you for everything!!!

Continue doing kaizen principle

During my batch of MBBS, we had theory and practical exams for our assessment. We neither had OSCE nor did we experience 'standardised patient' (SP) sessions, CDFIT or HEART sessions. I feel that I can vouch on behalf of all my batchmates that we were still adept at all the necessary skills for patient care as we had access to the skills lab and we honed our clinical skills there during our free time.

Internship was a bit hectic as everything was manual. But now, with the use of computerized work, things will be smooth for my juniors.

Great

I agree to the new changes incorporated in the curriculum

Students must be taught at least the basic clinical skills especially the clinical PROCEDURES (as mentioned in the CRRI handbook) before course completion.

No comments

Going well,keep it up

It's great

Very good teaching programme both clinically and academically

Students giving feedback about teachers will give s ope for teachers to modify their teaching methods. Also assessment of students will be more objective. It will shift the focus from what teacher knows and student doesn't know to want specifically a graduate level and post graduate level student should know and whether he got enough training and teaching by faculty. Visionary professor's like Ravishankar sir is an example for how to run an academic course💐👋🏽🤷🏽‍♀️

To continue the same

No comment

Dont know how to do , but try to make the department a unbiased platform for all the post graduates .

Good

It will be better if you stay up to date with teaching curriculum and ot technology

Improve patients number by providing them free treatment...

Thesis was the only problem for many students. This affected me mentally. If you were lenient like other colleges in thesis. Students would be the happiest

Congratulations

No time to study especially for university exams leave was just for 12 days asked to work even while pre university exam was going on arrogant assistant professor who doesn't train you properly department needs to be considerartive. Arrogant and egoistic Annantha krishnan who doesn't have ears for anything always thinks that he is right about what he thinks suffered a lot of depression because of him rest of the department follows him like a herd of sheep curriculum can be changed and made effective only if the faculty is patient and has listening ears to students welfare

.

More camps to be conduct and more clinical exposure

Aesthetic dentistry

None

Would like to have increased intercollegiate opportunities, conferences and workshops

New technology and materials that are coming up and will be in practical use. In internship, i was exposed to theoretical aspects of cad-cam, 3D imaging and Invisalign technology. Practical training would be useful in a long run.

More CDE programs with hands on.... Like rotary endodontics, placing implants with cbct guidences and 3d models, Transalveolar extraction

Forensic Dentistry

Basic medical professionals skill
Life saving skills

Exposure to advancement

More Hands-on programmes latest technologies.

Please introduce cad cam courses as it's the most used in today's private clinics and also different dental implants newly introduced into the market than conventional ones

Recent technologies , recent advances in dentistry , more clinical exposure

Can also include ACLS along with basic life support in the curriculum

21 responses

Nil

This curriculum makes us to be updated

Updated to changes as per NMC requirements and CBME

The credit based system of assessment.

It was very much useful to keep myself updated

None

Exceptionally relevant

I am happy to share that this platform gave me confidence to upgrade and transform myself to face challenges of educational evolution..

.

Classroom management technique, University work system, AI in health care etc

Nil p.m.

Portfolio

Good

It should be strictly time bound, if some one lagging, ne need entire batch should suffer for. there may be evaluation points for punctuality as well

Heutagogy was good. When I did the course educational research was elective . Now that being one of the core subject is better.

-

It will enhance the learners to be updated with recent updates in medical education

The topics were revised and made up to date and comprehensive encompassing almost all areas of health professions education.The assignments were broad-based and motivated us to do a comprehensive study of many topics. The choice of electives was also adequate through which we could work on our interest areas.

Reorganization of content and modules, additional modules on electives and more exposure to faculty fellow from different parts of world and profession is enriching.

Good program

Please comment on what other new courses/ subjects/ programs/ trainings must be included in the curriculum

21 responses

Nil

Interprofessions education

New digital teaching learning methods

Fellowship programmes on Assessment Methods, Communication Skills

Faculty development workshops on certain specific topics can be included

Art of self reflection and nuances of portfolio writing

Need of the hour

1. Pl include some onsite sessions too.
Also, being Ii MHPE, Pl allow me to access the recordings of current PGDHPE sessions, as it's difficult to attend online session...
2. As of now, the topics are very good and valid..
Otherwise, I feel some short courses like academic writing, software tools training in MET, can be included..

.

AI in health care and medical education

Palliative Care

Good

Attitude and empathy

NIL

Teacher's might be benefited from short term courses for implementing CBME evaluation in view of getting the students prepared for EXIT and NeXT exam.

How to frame MCQ and it's analysis might be an effective short certificate course / program that will benefit the teachers who are especially in the clinical departments.

Clinical teaching and assessment, leadership skills

No comments

Though all aspects of health professions education have been considered in the curriculum, some of the areas such as use of technology in teaching, academic guidance, simulation etc may be considered in greater detail.

Artificial intelligence in medical education, use of digital technologies in medical education, selection and implementation of electives for future needs.

16. Remarks on the curricular innovations of the institution:

- Excellent
- Venues for doing research by students shall be strengthened
- More than satisfactory.
- Progressive changes have already been made. Clinical examination pattern may include OSCE pattern.
- "Very good, students answered well, Teachers are easily approachable, guide the students to learn and understand the patient. Whole department was involved in examination process.
- Hospitality to external examiner is good. Dr K Hanumanthayya,"
- Its really excellent curriculum innovations and implemented in such a way students r benefitted with good outcome
- Communication skills can be improved. OSPE can be introduced.
- Curricular innovations are very good.
- Curricular innovations are good
- Very nicely designed
- Many clinical based pathological interpretation charts were availabel
- Well defined
- It was good. It could be better if real subjects can be brought for injury, dentition etc
- The team work is commendable. Some more work needs to be done before implementing it. How AETCOM needs to be implemented needs to be thought of.

SRI BALAJI VIDYAPEETH

DEEMED TO BE UNIVSERISTY, PUDUCHERRY

INTERNAL QUALITY ASSURANCE CELL (IQAC)

FEEDBACK ANALYSIS FORM

Professional Peers on Curriculum and Syllabi

Academic year 2022-23

S no	Positive pointers	Points for improvement	Suggested action to be taken
1.	Progressive changes have already been made. Clinical examination pattern may include OSCE pattern.	Venues for doing research by students shall be strengthened	Departments and Project work office will be informed to look into the Research labs and make necessary changes for better and effective utilization by students
2.	"Very good, students answered well, Teachers are easily approachable, guide the students to learn and understand the patient. Whole department was involved in examination process.	Communication skills can be improved. OSPE can be introduced.	Departments and curriculum committee will be asked to give more emphasis of Communication skill for both Undergraduate and Postgraduate with the help of MEU. For OSPE Departments will be asked for the suggestion in the BoS.
3.	It's really excellent curriculum innovations and implemented in such a way students r benefitted with good outcome	It was good. It could be better if real subjects can be brought for injury, dentition etc	All the clinical Department HoDs will be asked for prior preparation for the Clinical examinations and should be conducted on real patients.
4.	Curricular innovations are very good.	The team work is commendable. Some more work needs to be done before implementing it. How AETCOM needs to be implemented needs to be thought of.	Inputs will be taken from MEU, Curriculum and Departments for the better implementation of AETCOM.
5.	Many clinical based pathological interpretation charts were available		
6.	Very nicely designed		
7.	More than satisfactory.

ACTION TAKEN REPORT

Professional Peers on Curriculum and Syllabi

Academic year 2022-23

S. No.	Observations from feedback that warrants action	Action taken
1	Venues for doing research by students shall be strengthened	Departments and Project work office made necessary changes in the research labs for better and effective utilization by students.
2	Communication skills can be improved. OSPE can be introduced.	Departments have given specific hours in the schedule for the communication skill. OSPE was implemented by the departments as per the suggestion given in the BoS.
3.	It was good. It could be better if real subjects can be brought for injury, dentition etc	All the clinical Department HoDs agreed to conduct the university examination on the real patients. Simulated patients will be used only for the practice sessions for the students.
4.	The team work is commendable. Some more work needs to be done before implementing it. How AETCOM needs to be implemented needs to be thought of.	Departments have allotted specific schedule for the AETCOM modules and it will be taught with the help of MEU and simulation lab. All the new faculties will be trained in batches for the AETCOM by MEU.

FEEDBACK REPORT

FEEDBACK FROM PROFESSIONAL PEERS ON CURRICULUM AND SYLLABI

ACTION TAKEN REPORT (ATR)

Sr. No.	OBSERVATIONS FROM FEEDBACK THAT WARRANTS ACTION	ACTION TAKEN
1	Can add weightage to Industrial needs.	The university has collaborated with the National Skill Development Corporation under the "Pradhan Mantri Kaushal Kendra" scheme to provide students with value-added skill development opportunities and help students enhance their abilities in line with industry needs.
2	Advance tools like digitalization and data management in the field of pharmacy practice also to be incorporated as part of the curriculum.	Data management in the field of pharmacy practice cannot be implemented at the undergraduate level. Starting a postgraduate study in pharmacy practice will allow for the specialization, digitization, and data management of the field.

16) Please comment on what other new courses/subjects/programs/trainings must be included in the curriculum.

- Skill based refresher courses can be added
- Career development
- Guidelines for module conduction and evaluation could be included.
- Covered all the aspects

17) Please provide your remarks on the curricular innovations of the institution?

Good that the current curriculum covers all aspects for the benefit of the learners
More skill based training can be incorporated
Need to include Add on course
Good
I appreciate the sample questions attached for the perusal of the users .
Good
Remodification
Excellent

Feedback obtained on *Curriculum and Syllabus* .
Feedback provided by Professional peers
Feedback obtained from July 2023

The following actions were taken based on the feedback analysis and report, for the period of 2023/2024

S. No.	Observations from feedback that warrants action	Action taken
1	To add soft skill training for the students	● Recognizing the importance of imparting practical skills, we have introduced a comprehensive skill based component where our students will be registered for SWAYAM course through IQAC SBV cell
2	To incorporate career development programs	● To prepare students for their future careers, we have signed MoU with IMIMS, Chennai for Occupational English Test training.
3	To add guidelines for module construction and evaluation for the faculty	● To acknowledge the need for consistent and effective teaching practices, we have organized faculty sensitization session on course development in Moodle ● We will develop guidelines for the faculty members to design, deliver and evaluate course modules in Moodle,

Please provide your remarks on the curricular innovations of the institution:

1 response

Effective curricular innovations are being implemented in HPE. First of its kind in India.

Please comment on what other new courses/ subjects/ programs/ trainings must be included in the curriculum

1 response

Training programs on curriculum development, educational research may be introduced. Courses that foster critical thinking, creativity, collaboration, problem-solving may also be introduced.
